

Azure Audit Engagement Deliverables

Client: Northwind Health
Engagement Period: January–February 2026
Prepared By: Azure Governance Consulting

Contents

This folder contains the final deliverables from the Azure environment audit engagement conducted for Northwind Health. Each document addresses a specific aspect of the assessment and provides actionable recommendations.

Document	Purpose
01_Executive_Summary.md	High-level findings and recommendations for leadership
02_Naming_Standards_and_Governance.md	Recommended naming conventions and tag governance
03_Cost_Analysis_and_Quick_Wins.md	Cost optimization opportunities with prioritized actions
04_Dependency_Map_Explanation.md	Architecture diagram and dependency analysis
05_Audit_Methodology_and_SOP.md	How the audit was performed and change safety procedures

Supporting Data

The raw inventory data, detailed cost breakdowns, and supplementary documentation are available in the [azure-audit-artifacts/](#) folder upon request.
